Forecast for Sunday 14 Jul 2024

Weather: Any shallow mist and fog in the valleys will soon clear to leave plenty of sunshine to begin the morning. Cloud soon bubbling up though to leave a much cloudier afternoon, although still with some sunny intervals. The outside chance of a rogue shower developing but generally remaining dry. Cloud amounts reducing later to leave a mainly sunny evening.

Chance of cloud-free hill tops above 600m: 95%.

Low cloud and visibility: Early morning mist may lift to give some scraps of cloud around 300-500m until mid-morning. Otherwise, any cloud that forms should generally remain above the summits. Generally very good visibility but distant hills clear to see, but locally poor or very poor in early morning fog and/or cloud.

Freezing Level*	2300m	2300m	2300m	2300m	2300m	2200m	2300m

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Despite not feeling particularly hot, UV levels will often be high so sun protection is advised, even during cloudier periods.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
02:00 on Sun 14 Jul 2024	0mm	0.6mm	10.2mm

Forecast for Monday 15 Jul 2024

Weather: Dry during the early hours with clear spells but turning cloudy soon after dawn with an increasing chance of showers later in the morning. The chance of a longer spell of heavy rain for a few hours during the middle of the day, perhaps briefly thundery but this caries low confidence. Turning brighter later in the day with sunny spells and a chance of further heavy showers or thunderstorms.

Maximum wind: Southerly or southeasterly 20-25 mph. Sudden gusts possible in thunderstorms.

Chance of cloud-free hill tops 600m: 80% falling to 30% by early afternoon.

Low cloud and visibility: Periods of cloud around 500m during spells of rain or showers. Patches forming down to 400m during heavier showers and thunderstorms. Generally good visibility but becoming widely moderate for a time during the rain and poor during thunderstorms and in cloud.

Temperature: **Valleys:** Plus 8 Celsius rising to plus 19 Celsius.
At 600m: Plus 10 Celsius rising to plus 13 Celsius.
Freezing level: Well above the summits.
